Chief, Management Staff

16 April 1956

Chief, O&M Staff (DD/I and DD/E Areas)

FILED:
RETURN TO
RECORDS MANAGEMENT DIVISION

Work Report, Week Ending 12 April 1956.

1. Project 6-25, Personnel Records Survey. Survey report presented to Messrs. [redacted] and at the request of Mr. [redacted] a chart was prepared showing details as to the use of the Employee Record Card, OF-4b; Career Service Board Card, 37-160; and similar cards. The chart will include about 30 to 40 card files located by the survey.

2. Project 6-16, Survey of Personnel Procedures. The manpower control installation in Commo is progressing satisfactorily, with 75% of the necessary conversion documents processed by the Office of Personnel. The April machine runs will reflect the new T/O and the Development Complement. The Career Service Board operation in DD/P is being studied, in order to make plans for the extension of the system to that area and to the DD/S Area.

5. Project 6-24, Survey of Separation Procedures. Interviews with EE completed and interviews with NEA are continuing. EE provides no internal clearances with separating personnel including property and documents. No notification is given to the Office of Personnel as to separations until the SF 52 is prepared. The Chief, Admin of EE has agreed to arrange to have Personnel notified by telephone in advance of submittal of SF 52 in order to reduce the possibilities of personnel leaving with obligations to the Agency. Facts gathered so far in the DD/P Areas reveal that certain components require more internal deprocessing than necessary in view of other checks that are made and other components require too little. Also it is apparent that some components are keeping records on financial transactions involving its personnel that duplicate records in Finance Division. It is apparent that the Office of the Comptroller should exercise its responsibility for developing the necessary financial records of operating components and to assist in the elimination of duplicate or unnecessary documentation.
